

Who we are

Analysys Mason is a global strategy consultancy and research firm specialising in telecoms, media and technology ('TMT').

Since 1985, Analysys Mason has played an influential role in key industry milestones. We continue to be at the forefront of developments in the digital economy, advising clients on new strategies to address disruptive technologies.

Our consultants work with communications and digital service providers, financial and strategic investors, private equity and infrastructure funds, vendors, governments, regulators, broadcasters as well as service and content providers. As sector specialists we understand the distinct local challenges facing clients, in addition to the wider effects of global forces.

We possess a universal outreach and market understanding through our established teams across Asia, Europe, Middle East & the Americas. Our experts are based in 14 offices around the world, and operate in more than 110 countries.

The Opportunity

We are presently seeking a Strategic Associate Consultant in Madrid to join our expanding global consulting teams.

As an Associate Consultant, you have a direct involvement in the delivery of client strategic projects such as strategy design, due diligence analysis or regulatory work. You are involved in bid proposals and initiatives under the guidance of a more senior consultant.

You conduct high-quality research on client or internal projects under the guidance of a senior member of Analysys Mason.

Your main findings are communicated through written, graphical and oral presentations and you will be asked to give quantitative and qualitative analysis on various projects.

As you develop your skills, you become increasingly responsible for managing your own work streams as well as providing guidance to more junior consultants.

This role is based in Madrid city centre and our global client base provides occasional opportunities for national and international travel.

Education and Skills

It is essential that you graduated from a leading global University with proven academic excellence. Although we would prefer a degree in Engineering, Mathematics, Economics or other Scientific courses, we do consider applications from all disciplines.

You have a good knowledge or are interested in the TMT sector. As an Associate Consultant, you must have advanced analysis and problem-solving skills, as well as being numerically competent. You have critical thinking abilities.

Your written and presentation skills are excellent, and you have an advanced knowledge of Microsoft Excel and PowerPoint. You also can communicate effectively and efficiently.

You will have deadlines to respect, and you must then be good at planning and organising your time, and you can cope under pressure and face challenges.

As well as perfect English, you speak Spanish.

Working for us

At Analysys Mason we value sharp, enquiring minds; committed and motivated people who want to be challenged, who thrive on real responsibility and who can solve complex problems. Working in a fast-paced team, hard work and project success delivers accelerated career advancement, with a clearly defined career path guided by our first-class training and development programs. Our established international locations will provide critical global exposure, as well as an opportunity to build and enhance your learning & development.

If you want to know how it is to work at Analysys Mason, don't hesitate to contact Carmen, an Universidad Politecnica's alumni at **Carmen.Ferreiro@analysysmason.com**

We are looking forward to your application at the below link :
