

# GOFORE

## OFERTA DE EMPLEO

### \*Descripción del empleo\*

Gofore is growing fast and we are looking for fullstack developers to join our team in Madrid. Due to our strong presence in the private and public sector in Finland and globally, you will be working at large projects which have a direct and positive impact on the daily lives of millions of people.

### \*Responsabilidades y obligaciones\*

You are passionate about modern front-end technologies and aren't afraid to use them. You have experience in software development and you feel very comfortable with web technologies such as Angular, React, Vue, NodeJS, MongoDB, Express, or you have been through so many different technologies that you could learn those quickly. You might also be interested in software design/architecture or have some experience on it already. You love the elegant code that is easy to maintain and develop. You want to create web applications that are intuitive and easy to use, regardless of the device. You know and appreciate the principles of software development.

Cloud services and creating high quality web interfaces with different tools might also spur your interest. But first of all, you are passionate about developing your skills and are willing to help a colleague or client when necessary.

### \*Cualificaciones y habilidades\*

- Experience as frontend or backend software developer, with a willingness to learn new tools and skills
- Knowledge of software development principles
- Ability to create responsive web applications that are intuitive and easy to use
- Handle with ease of one or more of these web technologies: JavaScript, Vue.js, TypeScript, Node.js, MongoDB, ES6, Docker, Angular, CSS, RxJS
- High level of English to communicate fluently with colleagues or clients
- Ability to work as a team, enthusiasm, initiative and customer orientation
- Willingness to help colleagues or clients when necessary
- Experience in an international environment and experience with agile methodologies such as Scrum will be positively valued

### \*Beneficios\*

You will be working in a multidisciplinary team of Business and Service Designers, UI, UX and Graphic Designers, plus Software Developers and Architects and Project Leaders. Your projects will be varied and exciting building state of the art digital solutions that bring added value to our client's everyday lives. You will be working with a range of International businesses in the fields of technology, engineering and services.

We offer an unbeatable benefits package:

- Permanent full-time contract with a competitive salary.

- Flexible working hours, occasionally working from home is allowed.
  - Restaurant and transport tickets
  - Private healthcare insurance
  - Welcome pack: backpack, fleece, winter hat, lunch bag, stickers. All of them nice things.
  - Career planning. Choose your own professional path to advance in your career with us
  - Training and certifications. If you are eager to learn more you'll have the option to attend trainings and do certifications within working hours
  - Possibility to attend events and congresses. If you are keen to learn even more.
  - Possibility to occasionally travel. Either to Finland, UK or Germany to meet clients or work at other Gofore location.
  - Language lessons. We encourage you to learn other languages if you feel like it (not only English!)
  - Spotify premium account, so you can contribute to the office top playlists
  - Social events. We have plenty of interest groups in Gofore who organize fun stuff to break the routine and have a good time outside working hours!
- 
- Retro videogames in the office
  - Beer. Did you know Gofore has it's own brand of brewed beers?

### **\*Sobre la empresa\***

Gofore is a digital services company operating since 2002. We offer modern services that help operators in the private and public sectors to face digital change.

Our mission is to change the world for the better through digitalisation and by renewing ways of working. Our services cover the entire value chain

- from management consultation to service design and implementation as well as cloud services.

Gofore currently employs over 350 people in Helsinki, Jyväskylä, Tampere, Swansea and Munich. The company is now looking to expand their operations to Madrid, in search of local talent who would be interested in working in international projects either locally or with the possibility to travel.

Gofore was chosen as the best workplace in Finland and the second-best workplace in Europe in the Great Place to Work® survey in 2017.
